

Maxunitech North America, Inc.

SAFETY DATA SHEET

Issue Date 10-Dec-2025

Version #1

1. IDENTIFICATION

Product identifier**Product Name** Maxunitech® Bos+Prothio SC**Other means of identification****Synonyms**

Prothioconazole: 2-[2-(1-chlorocyclopropyl)-3-(2-chlorophenyl)-2-hydroxypropyl]-1,2-dihydro-3H-1,2,4-triazole-3-thione(CAS name)

Boscalid: 2-chloro-N-(4'-chloro[1,1'-biphenyl]-2-yl)-3-pyridinecarboxamide(CAS name)
PCP No. 35745**Registration Number(s)****Recommended use of the chemical and restrictions on use****Recommended Use** Fungicide**Uses advised against** Use according to label**Supplier's details**Maxunitech North America, Inc.
11601 Shadow Creek Pkwy, Suite 111-573
Pearland, TX
77584, USA
1-855-462-9621**Emergency telephone number****Company Phone Number** 1-855-462-9621**Emergency Telephone**

For spills or transportation accidents, Chemtrec, 1-800-424-9300.

2. HAZARDS IDENTIFICATION

According to Hazardous Products Regulations (HPR) (SOR/2022-272)

Label elements

No data available.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance

Not applicable

Mixture

Chemical Name	CAS No.	%
Prothioconazole	178928-70-6	12.9
Boscalid	188425-85-6	21.5
Benzenesulfonic acid, hydroxy-, polymer with formaldehyde, phenol and urea, sodium salt	/	>= 1.0 - < 3.0
Residues (petroleum), catalytic reformer fractionator, sulfonated, polymers with formaldehyde, sodium salts	68425-94-5	>= 1.0 - < 3.0

Maxunitech North America, Inc.

4. FIRST AID MEASURES

Description of necessary first aid measures

Eye contact	Flush eyes with clean water, holding eyelids apart for a minimum of 15-20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye.
Skin contact	Immediately remove contaminated clothing and wash skin, hair and fingernails thoroughly with soap and water. Flush skin with plenty of water for 15-20 minutes.
Inhalation	Move victim to fresh air. If not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
Ingestion	If swallowed, Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Do not induce vomiting without medical advice.
Most important symptoms and effects, both acute and delayed	None known.
Indication of immediate medical attention and special treatment needed, if necessary	There is no specific antidote if this product is ingested. Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	water spray, dry powder, foam, carbon dioxide Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Special hazards arising from the chemical	Hazards during fire-fighting: carbon monoxide, carbon dioxide, Hydrogen chloride, hydrogen bromide, nitrogen oxides, halogenated compounds, sulfur oxides, Phosphorus compounds, silica compounds. The substances/groups of substances mentioned can be released in case of fire.
Hazardous Combustion Products	Fire may produce irritating, corrosive and/or toxic gases.
Explosion data	
Sensitivity to Mechanical Impact	No information available.
Sensitivity to Static Discharge	No information available.
Protective equipment and precautions for firefighters	Firefighters should wear protective clothing and self-contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions	Do not breathe vapour/spray. Use personal protective clothing. Avoid contact with the skin, eyes and clothing.
Other	For further clean-up instructions, call Maxunitech North America, Inc. Emergency Hotline number listed in Section 1 "Product and Company Identification" above.
Environmental precautions	Do not discharge into the subsoil/soil. Do not discharge into drains/surface waters/groundwater.
Methods and materials for containment and cleaning up	Never return spills in original containers for re-use. Pick up and transfer the spilled material to a properly labeled container without creating dust. For spills on concrete or other non-

Maxunitech North America, Inc.

porous surfaces, the area can be cleaned using a small quantity of soap and water. Do not allow the cleaning solution to enter drains. Use an inert absorbent material to soak up the cleaning solution and transfer it to the properly labeled container. When the spill occurs on soil, the only effective way to decontaminate the area is to remove the top 5 to 7 centimeters of soil.

7. HANDLING AND STORAGE

Handling

KEEP OUT OF REACH OF CHILDREN. Prevent eating, drinking, tobacco use, and cosmetic application in areas where there is a potential for exposure to the material. Avoid breathing vapours or spray mist. Wear full protective clothing and equipment (see Section 8). After work, rinse gloves and remove protective equipment, and wash hands thoroughly with soap and water after handling, and before eating, tobacco use, drinking, applying cosmetics or using the toilet. Wash contaminated clothing before re-use and separate from household laundry. Keep containers closed when not in use. Protect product, wash or rinse water, and contaminated materials from uncontrolled release into the environment, or from access by animals, birds or unauthorized people.

Storage

Store in a place accessible by authorized persons only. Store in original container. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Electrical installations / working materials must comply with the technological safety standards.

The product is stable under normal conditions of warehouse storage.

Store in closed, labelled containers. The storage room should be constructed of incombustible material, closed, dry, ventilated and with impermeable floor, without access of unauthorized persons or children. The room should only be used for storage of chemicals. Food, drink, feed and seed should not be present. A hand wash station should be available.

Incompatible products

None known

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Components	Value type (Form of exposure)	Control parameters / Permissible concentration	Basis
Boscalid 188425-85-6	TWA	0.248 mg/m ³	CA ON OEL

Appropriate engineering controls

Engineering measures

The following recommendations for exposure controls/personal protection are intended for the manufacture, formulation, packaging and use of this product.

Consult the product label for commercial applications and/or on-farm applications.

Containment and/or segregation is the most reliable technical protection measure if exposure cannot be eliminated.

The extent of these protection measures depends on the actual risks in use.

Maintain air concentrations below occupational exposure standards.

Where necessary, seek additional occupational hygiene advice.

Individual protection measures, such as personal protective equipment

Eye/Face Protection

Where eye contact is likely, wear chemical goggles or a full-face shield. Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.

Maxunitech North America, Inc.

Skin and Body Protection

Impervious clothing Long sleeved clothing. Footwear protecting against chemicals. Choose body protection according to the amount and concentration of the dangerous substance at the work place.

Hand protection

Wear chemical resistant gloves, such as barrier laminate, butyl rubber or nitrile rubber.

The suitability for a specific workplace should be discussed with the producers of the protective gloves.

Respiratory protection

In case of mist, spray or aerosol exposure wear suitable per-sonal respiratory protection and protective suit.

Hygiene measures

Avoid contact with skin, eyes and clothing. This product should be used only by all personnel thoroughly trained to handle it. Wash hands before breaks and immediately after handling the product. Contaminated work clothing should not be allowed out of the workplace. Do not inhale aerosol. Remove and wash contaminated clothing and gloves, including the inside, before re-use.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Appearance	Off-white to yellow liquid
Physical State	Liquid
Color	Off-white to yellow
Odor	No information available
Odor threshold	No information available
pH	approx. 5.0-7.0(20 °C)
Density	1.165 g/mL (20 °C)
Melting point/freezing point	No information available
Boiling Point/Range	No information available
Flash point	No flash point - -Measurement made up to pilot light extinguishes
Flame extension	Not Applicable
Evaporation Rate	No information available
Flammability (solid, gas)	Not Applicable
Flammability Limit in Air	
Upper flammability limit:	No information available
Lower flammability limit:	No information available
Vapor pressure	No information available
Vapor density	No information available
Water solubility	No information available
Solubility in other solvents	No information available
Partition coefficient	No information available
Autoignition temperature	No information available
Decomposition temperature	No information available
Viscosity	No information available
Explosive properties	No information available
Oxidizing properties	No information available
Bulk density	Not Applicable

10. STABILITY AND REACTIVITY

Reactivity	No hazardous reactions if stored and handled as prescribed/indicated.
Chemical stability	The product is stable if stored and handled as prescribed/indicated.
Possibility of hazardous reactions	No hazardous reactions if stored and handled as prescribed/indicated.

Maxunitech North America, Inc.

Hazardous polymerization	Hazardous polymerization does not occur.
Conditions to avoid	Avoid formation of aerosol. Heat, flames and sparks. Protect from frost, heat and sunlight. Heating of the product will produce harmful and irritant vapours.
Incompatible materials	Strong oxidizing agents Strong acids and strong bases
Hazardous decomposition products	No hazardous decomposition products if stored and handled as prescribed/indicated.

11. TOXICOLOGICAL INFORMATION

Information on the likely routes of exposure

The acute toxicity information of the formulated product:

LD₅₀ Oral	> 2000 mg/kg (rat)
LD₅₀ Dermal	> 5000 mg/kg (rat)
LC₅₀ Inhalation	> 3.169 mg/L 4 hr (rat)

Serious eye damage/eye irritation	Not an eye irritant (rabbit)
Skin corrosion/irritation	Not a skin irritant (rabbit)
Sensitization	Not a skin sensitizer (Guinea Pig)

Data presented below are based on the active ingredient.

Information on toxicological effects

Symptoms None.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Carcinogenicity	The product has not been tested. The statement has been derived from the properties of the individual components. Information on boscalid: Assessment of carcinogenicity: In long-term studies in rats the substance induced thyroid tumors. The effect is caused by an animal specific mechanism that has no human counter part. In long-term studies in mice in which the substance was given by feed, a carcinogenic effect was not observed.
Reproductive toxicity	The product has not been tested. The statement has been derived from the properties of the individual components. Information on Prothioconazole: Assessment of reproduction toxicity: The potential to impair fertility cannot be excluded when given at maternally toxic doses.
Teratogenicity	The product has not been tested. The statement has been derived from the properties of the individual components. Information on Prothioconazole: Assessment of teratogenicity: The substance did not cause malformations in animal studies; however, toxicity to development was observed at high doses that were toxic to the parental animals.
Repeated dose toxicity	The product has not been tested. The statement has been derived from the properties of the individual components. Information on boscalid: Assessment of repeated dose toxicity: Based on available data, the classification criteria are not met.

Maxunitech North America, Inc.

Genetic toxicity	The product has not been tested. The statement has been derived from the properties of the individual components.
Aspiration hazard	Based on the ingredients, there is no suspicion of a mutagenic effect. Not applicable

12. ECOLOGICAL INFORMATION

Ecotoxicity

The product has not been tested. The statement has been derived from the properties of the individual components.

Toxicity to fish	Prothioconazole: LC50 (Oncorhynchus mykiss): 1.83 mg/l Exposure time: 96 h Boscalid: LC50 (Oncorhynchus mykiss): approx.2.7 mg/l Exposure time: 96 h NOEC(Oncorhynchus mykiss): 0.116 mg/L Exposure time: 97 days
Toxicity to daphnia and other aquatic invertebrates	Prothioconazole: EC50 (Daphnia magna (Water flea)): 1.3 mg/l Exposure time: 48 h Boscalid: EC50 (Daphnia magna (Water flea)): 5.33 mg/l Exposure time: 48 h NOEC (Daphnia magna (Water flea)): 0.8mg/l Exposure time: 21days
Toxicity to algae/aquatic plants	Prothioconazole: EC50 (Skeletonema costatum): 0.046 mg/l Exposure time: 72 h Boscalid: EC50 (Pseudokirchneriella subcapitata): 2.61 mg/l Exposure time: 96 h EC10 (Pseudokirchneriella subcapitata): 1.19 mg/l Exposure time: 72 h
Persistence and Degradability	The product has not been tested. The statement has been derived from the properties of the individual components. Prothioconazole: Not readily biodegradable Boscalid: Not readily biodegradable
Bioaccumulation	The product has not been tested. The statement has been derived from the properties of the individual components. Prothioconazole: Does not accumulate in organisms. Boscalid: Does not accumulate in organisms.
Mobility	The product has not been tested. The statement has been derived from the properties of the individual components. Prothioconazole: low mobility in soil Boscalid: Following exposure to soil, adsorption to solid soil particles is probable, therefore contamination of groundwater is not expected.

13. DISPOSAL CONSIDERATIONS

Maxunitech North America, Inc.

Waste treatment methods

For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Disposal should be made in accordance with federal, provincial and local regulations.

Contaminated packaging

Do not reuse container for any purpose. If applicable, return container in accordance with return program. If a recyclable container, dispose of at a container collection site. Contact local distributor, dealer or municipality for the location of the nearest collection site. Before taking the container to the collection site, triple or pressure rinse the empty container adding rinsings to spray tank, and make container unsuitable for further use. If there is no container collection site in your area, dispose of the container in accordance with provincial requirements.

14. TRANSPORT INFORMATION

TDG

Not classified as a dangerous good under transport regulations

IATA/ICAO

UN/ID No.	UN 3082
Proper shipping name	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (contains PROTHIOCONAZOLE, BOSCALID)
Class	9
Packing group	III
Hazard Label	9, EHSM

IMDG-Code

UN number	UN 3082
Proper shipping name	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (contains PROTHIOCONAZOLE, BOSCALID)
Class	9
Packing group	III
Hazard Label	9, EHSM
Marine pollutant	yes

Further information

Exempt from regulation when transported by road or rail, in accordance with TDG Regulations 1.45.1. This exemption provides that this product does not require dangerous goods shipping documentation or safety marks when transported on land by road or rail.

15. REGULATORY INFORMATION

Federal Regulations

Registration status:

Crop Protection	DSL, CA	released / exempt
-----------------	---------	-------------------

Labeling requirements under Pest Control Products Act

Read the label, authorized under the Pest Control Products Act, prior to using or handling the pest control product. This chemical is a pest control product regulated by Health Canada Pest Management Regulatory Agency and is subject to certain labelling requirements under the Pest Control Products Act. These requirements differ from the classification criteria and hazard information required for GHSconsistent safety data sheets. The following is the hazard information required on the pest control product label:

Maxunitech North America, Inc.

Caution: Poison

KEEP OUT OF REACH OF CHILDREN.

HARMFUL IF SWALLOWED.

Harmful if inhaled.

Harmful if absorbed through skin.

Avoid contact with the skin, eyes and clothing.

Avoid inhalation of mists/vapours.

Wash thoroughly after handling.

Wear a long-sleeved shirt, long pants, chemical resistant gloves, shoes and socks during mixing, loading, application, clean up and repair.

Wear protective eyewear (goggles or face shield).

Keep and wash personal protective equipment separately from other laundry.

Apply only to agricultural crops when the potential for drift to areas of human habitation and areas of human activity such as houses, cottages, schools and recreational areas is minimal.

Take into consideration wind speed, wind direction, temperature inversions, application equipment and sprayer settings.

There are Canada-specific environmental requirements for handling, use, and disposal of this pest control product that are indicated on the label.

16. OTHER INFORMATION

MSDS Creation Date: 10-Dec-2025

Issue Date: 10-Dec-2025

Revision: #1

Disclaimer

The information provided in this Material Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
