SAN Group Biotech USA, Inc. makes no warranties of merchantability or fitness for a particular purpose nor any other express or implied warranty except as stated above.

DIRECTIONS FOR USE

SHAKE VIGOROUSLY BEFORE USING.

Application rates and timing of this product should be based on local conditions along with soil and/or plant tissue analyses.

Organic BioLink® Manganese can be applied to all crops including fruit trees, vines, tree nuts, fruits and vegetables, field and row crops, ornamental trees, shrubs and flowers, containerized plants, lawns and turf.

Organic BioLink® Manganese can be applied by ground or aerial application. Use enough water for thorough coverage of soil or foliage. Complete coverage is essential for best results.

Foliar Application: Use 16-32 ounces of **Organic BioLink® Manganese**. Do not use less than 25 gallons of water per acre.

Soil Application:

Mild deficiencies - 1 to 2 quarts per acre

Moderate deficiencies - 2 to 4 quarts per acre

Severe deficiencies - 1 to 2 gallons per acre

Use Rates on Turf:

Corrective Rate: 2 ounces per 2 gallons of water per 1,000 square feet.

Maintenance Rate: 1 ounce per 2 gallons of water per 1,000 square feet or use 2 gallons of water per 1,000 square feet.

Compatibility: Always conduct a compatibility jar test before mixing **Organic BioLink® Manganese** with new products.

Phytotoxicity: Always perform a phytotoxicity test on a small plot before large-scale application. To lower the risk of phytotoxicity, applications should be made early morning or late evening.

STORAGE & DISPOSAL

Storage & Container Disposal: Do not contaminate water, food or feed by storage, disposal. Store in original container out of direct sunlight. Keep out of reach of children. Triple rinse and puncture empty container. Dispose of contents and empty containers.
