

FIFRA Sec. 2(ee) Recommendation

Sefina®

Inscalis® Insecticide

For control of cotton fleahopper in cotton

For use in: Alabama, Arizona, Kansas, New Mexico, Oklahoma, Tennessee, and Texas.

This Section 2(ee) Recommendation expires on December 31, 2026.

EPA Reg. No. 7969-391

This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA.

All applicable directions, restrictions, precautions, and Conditions of Sale and Warranty on the EPA registered container label are to be followed.

Information contained in this Section 2(ee) Recommendation is not intended to replace or amend any product labeling. Always read and follow all label directions when using any pesticide alone or in tank mix combinations.

The user must have this recommendation in their possession at the time of use.

Directions For Use

To control cotton fleahopper, apply 3 to 6 fl ozs/A of **Sefina® Inscalis® Insecticide**. Use a higher rate in the rate range for optimum control under high pest pressure or heavy immigration of cotton fleahoppers from other crops. Two applications may be required for optimum fleahopper control. See container label for all cotton application instructions and restrictions.
